Kontron Embedded Computing Product Guide 2009

View the latest Kontron embedded computing products and comprehensive customization and ODM services

Eching, Germany, July 08, 2009 –The new 112-page Kontron Product Guide 2009 offers a comprehensive overview of Kontron’s embedded [boards and mezzanines](#), [Computer-on-Modules](#), [HMIs and displays](#), and [systems and platforms](#). All of the standards based form factors and platforms are backed up by Kontron’s comprehensive [customization](#) and [ODM \(Original Design and Manufacturing\) services](#) that are featured for the first time in the 2009 Product Guide.

Highlights from the new products include the ultra-small (10cm x 7.2 cm) [Kontron pITX](#) Pico-ITX embedded single board computer that offers maximum connectivity on an extremely compact and highly cost-effective standardized footprint. Kontron also launches its support for the new VPX standard with two [VPX processor boards](#) that bring maximum serial bandwidth over the backplane to ultra rugged applications. Another first in this year’s Product Guide is the range of 1U and 2U carrier grade [Communication Rack Mount Servers](#) acquired from Intel®.

Kontron’s portfolio of standards based COTS products is the basis for the company’s custom designs and solutions and Original Design and Manufacturing (ODM) services. Kontron customers benefit from its existing technology by reduced costs and development time. Kontron offers OEMs cost-effective custom design and manufacturing services worldwide for smoother project management and faster time to market. From Computer-on-Modules and [SBCs](#) to embedded integrated systems and application ready platforms, Kontron’s global customization and ODM services cover the full project life cycle, i.e. development, material management, manufacturing, logistics and EOL services.

The new 112 page Kontron Embedded Computing Product Guide 2009 is available now as an interactive CD, in print or online as a PDF.

Please click http://www.kontron.com/fileadmin/medien/product_guides/Kontron_PG2009.pdf to directly download the PDF (approx 7 MB) or visit <http://www.kontron.com/response> to order the print or CD versions.

###

About Kontron

Kontron designs and manufactures embedded and communications standards-based, rugged COTS and custom solutions for OEMs, systems integrators, and application providers in a variety of markets. Kontron engineering and manufacturing facilities, located throughout Europe, North America, and Asia-Pacific, work together with streamlined global sales and support services to help customers reduce their time-to-market and gain a competitive advantage. Kontron's diverse product portfolio includes: boards & mezzanines, Computer-on-Modules, HMI's & displays, systems & platforms, and rugged & custom capabilities. Kontron is a Premier member of the Intel® Embedded and Communications Alliance and has been a VDC Platinum Vendor for Embedded Computer Boards 5 years running. Kontron is listed on the German TecDAX stock exchange under the symbol "KBC". For more information, please visit: <http://www.kontron.com>
